

CLASSROOM NEWS

week of: Week 7 3/4M

Kitchen

We have been making delicious food including: Pear crumble, pumpkin soup, flat bread, and roast pumpkin purple potato salad. These are really yummy dishes. You should try them!!!

Class Meetings

We are having class meetings every two weeks. Class meetings are when we are put all our chairs in a circle and talk about what is working and what's not working and new ideas. We have two boards to put what is working, new ideas, and what's working. You can speak the truth.

The animal project

We are doing a project on endangered animals. First you have to choose an endangered animal. I chose a Corroboree frog and Harriet chose a night parrot. You have to research about it and then make a diorama, poster, or a book. Then possibly we will do a day where people can come and see our work.

Garden

You split into different groups and the groups do different jobs. I like planting plants and Harriet likes weeding. Sometimes we do weeding and sometimes we do planting. We love gardening!!!
